

A & A GAME ENGINEERING PRODUCT SUPPORT

Product Support sheets come in the following types:

- Clarifications – these are more general clarifications about game play in response to questions from players.
- Corrections and Amendments – these include corrections to errors in game data, typing errors, and mistakes in game play that have come to light. These may come in two alternatives:
 - applicable to the most recent edition.
 - applicable to previous editions. These items will all have been incorporated into the latest edition on sale.
- New Rules – These rules will have been developed in response to requests from players. They may also have been developed from House Rules (see below).
- House Rules and player suggestions. House rules that are tested and work well may be incorporated into the basic rules if the author(s) approve.

OFFICER'S HANDBOOK

UPDATED NATIONAL DATA TABLE

FRANCE

DATE: 15TH NOVEMBER 2017

What is in this document ?

This document contains an updated list of vehicles.

Modified entries have a thicker right-hand table margin and the bottom margins of cells in the table where there has been a change is also thicker.

Other vehicles have had their data altered where we have been able to get more technical specifications of the originals. This is particularly the case of wheeled self-propelled weapons.

Details of the vehicles concerned are summarised below, including in some cases relevant remarks.

- Laffly W15 TCC 47mm Portee: The speeds and cost have been changed.
 - S20TL 25mm Portee: The speeds and cost have been changed.
-

Date	Type	Armament		Movement in cm			‘Squish’ Size	Armour		Direct Fire Range, To Hit modifier and Penetration					HE #	Notes Vehicles are Fully-tracked unless otherwise indicated i.e. [½]-tracked [w]heeled	Cost
