

Quick Reference Sheet for **Jutland**, Edition 2.0

2.2 – Game Sequence	
Ongoing damage	Take damage from fire and flood. This is carried out by both players simultaneously. Test for sinking ships. Remove Smoke Screens.
Initiative	Remove all splash markers. Squadrons reduced to half strength or below test for morale. Each player rolls d10 for initiative, applying modifiers as shown. (The weather may change.)
Movement	All Submarines move, then All ships move, then All aircraft move. Off-table aircraft and airships test to come on table. Players alternate moving their Squadrons and Contact Markers, in the order chosen by the player who won the initiative for this turn. Any ram or mine damage that is inflicted during movement is applied as it occurs.
Repairs	Put out fires, stop flooding, attempt other repairs. This is carried out by both players simultaneously.
Spotting	Contact Markers that are within spotting range of an enemy are revealed if their counter is selected and the test to spot is successful. Spotting is carried out alternately, starting with the player who won initiative.
Firing	Squadrons carry out their attacks alternately, starting with the player who won the initiative for this turn. Resolve all gun fire Resolve all torpedo fire When a squadron is resolving its attacks these are carried out ship by ship, each completing its actions before moving to the next.
