
SALAMIS AD ACTIUM

CAMPAIGN MAPS

DATE: 3RD AUGUST 2016

Preamble

These maps have been extracted from the rules so that they can be printed off for use as required.

Notes:

- The maps can be placed adjacent to each other so that a larger playing area can be achieved.
 - The dotted lines in the maps are Perilous Routes.
 - Naval Bases must be located in one of the named larger black boxes.
 - The smaller black boxes are normal move boxes and can be used as ports, EXCEPT
 - If there are two or more perilous routes contacting the box, then it cannot be used as a port and is only used as a movement box.
 - Double arrow lines are LAND routes and you cannot sail a ship along them.
